HADE ON BEACH

Sir Thomas Dewar Trophy Is Scheduled.

New speed records for the world are an assured fact for the seventh annual Devions beach automobile races scheduled for March 22d to 26th inclusive, as a telegram has just been received by F. B. Stidham announcing the entries of the Fiat Company. A team of these well known racing cars will compete on Daytona's famous sand course and will include a speed car of 170 horse-power which is a masterpiece of the engineer's skill.

This marvelous machine will be run in the competitive race for the Sir Thomas Dewar trophy which is valued at \$2000, and which will be the prize for the contestants in the International Mile Race.

Senator W. J. Morgan, who is the general manager of this year's Speed Carnival, also reports that the Daytona races have created much interest among the manufacturers who were present at the automobile show of the American Motor Car Manufacturers' Association which was held at the Grand Central Palace in New York the first week of this month, as well as at the Madison Square Garden Show, which is now crowding this historic show place of the metropolis. Keen interest is being displayed both by the most noted drivers and the most influential motar car manufacturing companies in the sweepstakes price stock car race, in which the cars will be handicapped according to selling price and not engine power.

Many entries are being promised for this race, and for the special race open to competitors in past Vanderbilt cup races. Such contests are of particular interest to both the gas engine experts and to the public, for in this way a thoreach test of the mechanical excellence of the contending rival motor cars is given in the open under the direct gaze of the spectators. A manufacturer's

high-powered racing machines will appear is the contest for the Minneapolis trophy, which was won last year by the Piat, driven by Emanuel Cedrino, whose tragic death is still fresh in the public

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

It is not only the exterior of many of these homes that rivets attention; within they are models of convenience, and the finish and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed it is the interior arrangement and the artistic furnishing and shading, more than the exterior appearance that give a surpassing charm to Daytona homes. This feature justly merits prominence as wonder number four.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. Beer Money and Churches.

In the eighteenth century there were no temperance societies or bands of hope, nor Rechabites and blue ribbon To be as "drunk as a lord" was the height of human felicity. It was the age of "three bottle men," of convivial toasts, of drinking songs. Even the church indirectly encouraged intemperance. There were certain districts where at Whitsuntide the churchwardens were accustomed to levy contributions of malt from the parishion-The Cave cigar factory made the ers. This was brewed into strong ale first shipment of samples to Chicago and sold in the church. The Whitsuntide topers had, however, a pious method in their madness.
